Ineuron • June 2023 - June 2023

- Built this project from scratch

SKILLS

Technical Skills: , ReactJS, Javascript, Typescript, Redux, Apollo client, GraphQL, HTML, CSS, SASS, TAILWIND, GIT

EDUCATION

Bachelor of Technology

BSIT • Hyderabad, Telangana • 2017

PROJECTS

Tvpedia

Ineuron • May 2023 - June 2023

[Web](#) [Github Link](#)

- Created Tvpedia, a movie web application using React.js, Redux Toolkit, and Tailwind CSS.
- Implemented API integration to fetch data for TV series and movies, displaying the information on the user interface.
- Designed a user-friendly search feature, allowing users to search for their favorite TV series or movies.
- Developed a detailed view for each title, providing users with additional information and the option to watch trailers.
- Implemented a specialized "MyList" section, enabling users to add their favorite titles for easy access.

My Wardrobe

Ineuron • June 2023 - June 2023

- Developed and launched "myWardrobe," an e-commerce website using React, Redux Toolkit, and Tailwind CSS.
- Utilized React components to create a visually appealing homepage showcasing a curated selection of products.
- Implemented a robust search functionality, allowing users to quickly find desired products from the extensive product database.
- Designed a detailed product page, providing users with comprehensive information and specifications for each item.
- Integrated Redux Toolkit for efficient state management, ensuring a seamless user experience throughout the application.
