SKILLS

- React.js
- Next.js,
- Redux, Redux Toolkit.
- Redux Saga.
- React Hooks, MUI.
- Bootstrap, Tailwind CSS, SCSS, Responsive Design.
- REST APIs.
- ExpressJS, NodeJS.
- MongoDB, postgresSQL
- JavaScript, TypeScript HTML, CSS, JSX.
- Git, AWS CI/CD, Webpack.
- Teamwork.
- Time Management.
- Effective Communication.

PROFILE

Innovative Frontend/Fullstack Developer with expertise in React.js, Next.js, and modern JavaScript frameworks, skilled in building scalable, responsive web applications. Proficient in developing reusable UI components, optimizing development workflows, and enhancing user experience in B2B SaaS platforms. Committed to writing clean, maintainable code and driving performance improvements through modern frontend architecture.

WORK EXPERIENCE

Unsuit Legal Technologies

2023 - 2025

Founding Engineer (SDE-1)

- Architected a full-scale frontend SaaS platform using React.js, resulting in a 35% increase in onboarding efficiency for over 1,200+ legal professionals.
- Implemented secure, multi-role authentication (admin, user, super admin), reducing unauthorized access attempts by 90% and improving compliance.
- Integrated cloud storage (Google Drive, OneDrive, Dropbox), enabling 10,000+ monthly uploads with 40% faster retrieval.
- Developed an advanced document management system supporting CRUD, split, and merge operations, cutting legal document handling time by 30%.
- Optimized frontend API handling through custom React hooks, reducing redundant code by 50% and decreasing request-related bugs by 60%

Caresync

2022 - 2023

Founding Engineer (SDE-1)

- Developed interactive healthcare dashboards and patient tools with React.js, improving the user experience across devices.
- Engineered role-based UI authentication workflows, improving registration flow accuracy and reducing login issues by 70%. Designed and implemented 20+ responsive UI components using HTML5, SCSS, and React Router, enhancing page load times by 25% across devices.
- Reduced load time by 40% by optimizing components and improving state management.
- Used Redux.js for structured state handling across multiple views and components.
- Worked cross-functionally with designers and backend engineers in an Agile environment.

LANGUAGES

- English (Fluent)
- Hindi (Fluent)

EDUCATION

Bachelors of Technology in Civil Engineering (2013 - 2017)

JNTUH, Hyderabad

FREELANCING

MOCK24x7

2024

Frontend development

- Designed and implemented a modern, user-friendly UI using React.js and Tailwind CSS to enhance student experience.
- Integrated authentication and authorization for secure student sign-up and login flows.
- Developed exam and scoring modules to allow students to take tests and view instant results.
- Created dashboard interfaces for both students and admin to manage study materials and monitor performance.
- Collaborated with backend API endpoints to ensure seamless data flow between frontend and server.
- Optimized application performance and responsiveness across multiple devices.
